SUMMARY

Junior full-stack developer who builds web apps with React and Next.js. I work on my own products, Portalink and Whip, and take freelance web projects on the side.

EDUCATION

- Universitas Terbuka – Bachelor of Information Systems** 2025 – Present
- Active student, focusing on software development and digital systems.
- SMA Negeri 1 Pupuan, Bali – Science Program (IPA)** Jul 2022 – Apr 2025

EXPERIENCE

- Freelance Web Developer – Self-Employed, Indonesia** Jan 2023 – Present
- Build responsive websites and landing pages with HTML, CSS, JavaScript, React, and Next.js.
 - Create reusable UI components using a mobile-first approach.
 - Connect front ends to REST APIs and Firebase (authentication and data storage).
 - Build and run my own products, Portalink and Whip (see Projects).

PROJECTS

- Portalink – portalink.cloud** 2026 – Present
- Cloud storage aggregator that puts Google Drive, Dropbox, OneDrive, Mega, and other accounts in one dashboard.
 - Lets users browse files across providers, move files between clouds, and keep folders in sync automatically.
 - Solo build, currently in active development.
- Whip** 2026 – Present
- AI super agent for development work, similar in idea to Orca IDE.
 - Solo build, currently in active development.
- Soil Moisture Monitoring System – School project** Nov 2025
- Built a soil moisture monitoring device on my own, covering system design, sensor wiring, code, calibration, and testing.
 - Placed 2nd at the regency-level academic competition (Juara 2 Tingkat Kabupaten).
